

# LAMBOXAPES.ART

WHITEPAPER

## ABOUT US

We are a diamond handed ape community who believes every ape should have a nice ride. We wanted to bring a unique type of NFT. We decided to go with Lambos because of the multiple applications a vehicle can be applied to in the real world but also in the virtual world. Lambos have also stood for a symbol of success among the crypto community. #wenlambo

The idea of Apes rose to popularity over the last 2 years and we believe that describes the unity of people for a common purpose. The diamond hand ape community spans over multiple markets but stands for one cause and that's the little guy.

## APE CLUB STORE

Only XRP will be accepted for store purchases. Item is only a example of the product. Items will be made available 2022

# LXA TOKEN

Each \$LXA token represents (1) NFT.

The thought process behind the Lambo NFT was to create a multi-functional project. A high-valued speculative token or a NFT that provides entertainment and value to its holder.

If you would like to purchase \$LXA. Follow the simple steps below.

**STEP  
1**

Download Xumm App From App/Play Store

**STEP  
2**

Follow the the Xumm setup instructions

**STEP  
3**

Set up Trustline with LXA

You are now all set to purchase LXA. Within the XUMM App find DEX Trade. Find the trading pair LXA/XRP & set the base pair to LXA. Set your buy limit or market order and you're finished.

# THE OG CLUB

The OG Club is an exclusive club that requires the members to hold at least one \$LXA to maintain membership and receive perks.

## What are the requirements?

The first step is to establish a trustline with \$LXA on the XUMM Wallet app. Next, you want to head over to DEX such as Sologenic to trade \$LXA. OG Club membership is maintaining a balance of 1 \$LXA. After obtaining \$LXA, head over to Discord and post a screenshot in #proof-of-og and a moderator will review it. If it meets the requirement, you'll be promoted and gain access to special OG Club channels. Any attempts to cheat the system will result in automatic disqualification in OG rewards. Such attempts include having multiple OG accounts, multiple wallet submissions to receive additional rewards, bot farming, or losing a balance of 1 \$LXA.

## What are the perks?

The perks of being in the \$LXA OG Club start with exclusive OG Club airdrops but that's not all! We provide the OG Club with the most up to date information regarding \$LXA and its developmental process. The \$NIO token will be available to any holder of 1 \$LXA at the time of the snapshot that'll occur prior to minting. The snapshot does not have an announced date to promote genuine holding versus planned pump/dump. In the end, the OG Club is open to many surprise contests such as questionnaires pertaining to the project. We appreciate our supporters and will reward them for it.

# OG WHALE CLUB

The \$LXA Whale Club will be given various opportunities to gain more value.

## What are the requirements?

The \$LXA Whale Club requires that you maintain a balance of 10 \$LXA.

## What are the perks?

he \$LXA Whale Club will receive early access to the beta AR application. \$LXA Whales will gain the ability to vote on important events that'll occur within the project. \$LXA Whale rewards will evolve as the project progresses as these are the true supporters and our most valuable Lambo Art Collectors.

# AUGMENTED REALITY APPLICATION

The augmented reality application will be released in stages. At the final stage of our augmented reality application, you will be able to display your minted NFT in the real world. The fully developed application will allow its user to sign in with their Xumm wallet. The application will have photo and video animation functionality.

The Metaverse is in developmental stages. Currently there are no frontrunners, meaning that building on any application is not fully stable. We chose to utilize the augmented reality application because it can be further developed and built on now, providing the foundation for transitioning to the metaverse.

# L3X FUSION TOKENS

Total Supply:

100

L3X

Total Supply:

150

L3X1

Total Supply:

250

L3X2

## What does it do?

There are only 100 L3X, 150 L3X1 and 250 L3X2 Tokens that will ever be used as IOU's for minting an NFT Character based Lambo (Fusion Mint). These 500 are broken down into three (3) separate collections.

See the L3X Collection size chart for each generation.  
Gen 0 is the only collection to be released at this time.

Announcements will be made in the future for Gen 1 and 2.

The L3X Fusion will be a combined NFT that includes your NFT Lambo and a character based NFT that you own and choose. Our artist will then fuse the NFT's together.

Metadata will also be provided to show that it came from the original NFT collection and any other pertinent information. Owners of the L3X token, and NFT characters, are responsible for receiving any original art work elements, if needed, from their NFT character's original artist.

Once XLS20D has begun, an atomic swap function will be written into smart contracts so that anytime you want to switch between the character and the lambo you can do so automatically. An example of this would be in a Metaverse where you are walking around and then want to drive your lambo. You would go to the garage and "swap" your character NFT for your Lambo Character. Then you could swap back to just your character when you are finished driving, racing, gaming. It is the intent that both NFT's will always be owned by the same person. So when you decide to sell your Character NFT and your Lambo Character NFT that they will both be sold together.

## How to get L3X?

Initially L3X was released to the community at an exchange rate of 3 LXA per 1 L3X token until the first collection of Gen 0 tokens (100) were distributed. These went extremely fast because of the rarity of the fusion mint token. A limited supply of Gen 1 and 2 will come at a later date.

You can acquire any of these tokens that people are wishing to sell or trade off of the DEX market. The value of these tokens is based on market demand and trading pairs off the DEX.

# NITRO (\$NIO) TOKEN

## NIO Requirements?

XRP Address holding at least 1 \$LXA or L3X token  
Trustline set up to \$NIO with that same  
address.

**First yr. supply: 3,650,000 \$NIO**  
**3.65M**  
**First Year**

**2,000 \$NIO = 1 OG APE**  
**OG APES Supply 2,000 NFTs**

**Full 5 yr. supply: 18,250,000 \$NIO**  
**18.25M**  
**Full Total Supply**

Nitro will give LXA/L3X holders the ability to exchange for our newest NFT collection where we will be releasing previews soon. This NFT will be the Special LamboXApe Operator as well as the operator for any future Creative X vehicle.

- Nitro will unlock the LXA exclusive club membership and holders will be granted access to an exclusive LXA garage on the future metaverse application
- You will be able to use Nitro to exchange for LXA limited edition merchandise that will only be available with Nitro exchange.
- Nitro will be able to be used in our future games to unlock rewards, vehicle upgrades and items, and characters to upgrade your Lambo NFT.
- Nitro (\$NIO) is a loyalty reward token for holding LXA or any of the L3X Gen Fusion Tokens. Nitro is the utility token with future metaverse applications and soon to be redeemable for future project series that are limited

## How to earn?

Each LXA holder earns 1 \$NIO per day for holding 1 token.

Each L3X holder earns 3 \$NIO per day for holding 1 token.

Example:

“James holds 1 \$LXA, so he will get 7  
\$NIO each week”

“If James holds 10 \$LXA, he will get 70  
\$NIO each week”

“If James holds 1 L3X, he will get 21 \$NIO each week, because 1 L3X = 3 LXA”

# ROADMAP

## Q4 2021 Created

### LamboXApes.art was Founded

- Complete White Paper 1.0
- Created XRPL Token
- Created social media channels
- Started Marketing XRPL NFT's to the community
- Preview of Gen 1 Lambo NFTs
- Release of V1.0 of our augmented reality application
- Create a 3D Lambo XRP race car
- Hit 5,000 twitter followers
- Complete a OG membership airdrop

## Q2-Q4 2022

### Developing LXA Technology

- Marketing campaign
- LXA AR app.
- Exploring technology integration with the Metaverse
- Announce our newest NFT collection
- Expand on strategic technology partners
- LXA AR app. V2.0
- Creation of Nitro Reward Token
- Creation of L3X fusion Tokens

## Q1-Q2 2022

### Developing LXA Technology

- Expand on marketing outlets and partnerships
- Creation of Generation 2 NFT collection
- TBA- Minting of Lambo NFTs (subject to change)
- Creation of the LXA Art Team

# TOKENOMICS

\$LXA total supply is 10,000

4,000 will be airdrop (40%)

rsXLd9AtvAUrBT8wiZbUzi6sojCfRUjyW5

2,000 tokens are dedicated to marketing and operations. (20%)

rsXLd9AtvAUrBT8wiZbUzi6sojCfRUjyW5

1,500 tokens reserved for partnerships (LOCKED UNTIL MINTING) (15%)
